Subject: Continue Item 8055A-14

To whom it may concern,

After a discussion with City staff, my architect and my engineer, we request this item be continued to August 18, 2014 to allow the necessary time to prepare plans for the development of the site. Our goal is to provide the council with a site plan for compliance with the items needed to apply for a CUP. The plans are to include curbing, hard surface, storm water management, parking plan, screening, and security.

Thank you

Eric Hillger
